

WHICH LESSONS SHOULD I CHOOSE?

Private Lessons

- Ages 3 & up (no exceptions)
- Child needs more specialized or one-on-one training
- Ability to sign up for however many lessons you would like
- More flexible with what they learn and work on, not a pass or fail at the end. You meet with your instructor and discuss your goals for your child.
- Best for children wanting to go on to do competitive swimming or swim team
- Best for children who may not be able to pay attention in a group

Group Lessons

- Children 2 & up (age 2 is a parent/child class, parents must get in the water with their 2-year-old)
- There is a set number of lessons depending on age
- Must be able to pay attention and focus in a group of 8 or more students
- For children needing to learn to float & develop recreational swimming strokes
- Structured pass or fail skill levels with lesson plans and achievements/certificates at the end of each level or age group.
- Not necessarily going on to competitive swimming but helps develop proficient skills, does not disqualify you from pursuing swim team
- More cost effective
